TIME: 9:00 – 9:30 AM

EVENT REPORT

“A mother is she who can take the place of all others, but whose place no one else can take.”

A single day can never be enough to celebrate that one person who painstakingly brought us into this world and strived to give us the life we deserve. Mothers truly are one of the best gifts to mankind and being a mother can be a very thankless job, at times. More often than not, mothers are always expected to put their child's need above theirs and they very selflessly do so as well.

On May 11, 2021, the little Bosconians of Kindergarten celebrated the special occasion of Mother's Day with great fervour and enthusiasm. The kindergarten mothers were specially invited for the celebration online with their bundles of joy.

The children prepared a necklace using coloured/glittered pasta and wool and fruit salad for their mothers with the helping hand and guidance of their fathers. All the fathers participated enthusiastically with their wards. After the preparation of the same, they gifted the necklace to their mother and fed them with the fruit salad to convey their gratitude for their unconditional love.

The programme concluded on a joyful note, All the mothers were invited to dance with their children on the foot tapping tunes of Boogie Woogie & Shala lala la guided by the teachers. Wishing all the mothers a very happy Mother's Day and God's immense blessings.
